    - i. **Chuck a puck-*Lenny’s response***: We would not be opposed to having this discussion but the High School would have to decide what they want to do as there is not enough time each night to do multiple things...I believe there has been discussion about a mite "game" during intermission for games as well....to keep the rink on schedule for the games and the renters after there would not be time for 5 minutes to do chuck a puck and 5 minutes for mite game....things are very tight as it is especially since the coaches decided they wanted a

resurface after every period including JV games. (this is a decision the 3 head coaches had to make together so all are the same) Logistically we would need to HS team/booster club to get pucks (unless BAHA will lend you there pucks), would be your responsibility to set up and take down a table, sell pucks, and lastly clean them up from the ice quickly so a resurface can be done. Let me know if you want to discuss further. Not saying yes, but also not saying no.

- ii. **Chick Fil A- Lenny's response**- Since the city is now running concessions at BIG this would be more difficult due to liability and a very limited amount of food for an event like a high school
